THE MASTERPIECE DIFFERENCE

Our passion is to design and build the country's premier outdoor living spaces through unique designs, superior craftsmanship, exceptional customer service and our love for the great outdoors!

With over 35 years of design expertise, our Masterpiece designers know how to make the most of your home's outdoor space. The ultimate goal is not just to create inviting outdoor spaces, but to truly grow connections between you, your family, and the great outdoors!

THE MAN BEHIND MASTERPIECE

I was in 5th grade when life dealt me a devastating blow. My sisters and I were wards of the state and we spent our early years going from foster to foster home. Finally the state found someone to adopt us but there was one problem . The prospective new parents only had room for my two younger sisters. Losing my sisters was one of the toughest days of my life. Unfortunately things got even tougher when I moved into my next foster home. For the next year and a half I was deprived of food and was forced to stay in a bedroom, only to get out to go to the bathroom and for school.

It was through those tough circumstances of being locked in a room that ended up being one of the biggest blessing my life. Every day I would look out my window and stare at the beauty outdoors. The outdoors gave me hope. The sky, combined with the ever changing clouds and daily weather system's served to be my theater. When it rained or snowed, I would open my window and fill my lungs with the fresh smell of moisture. Daily I would gaze at beautiful wildlife like deer, squirrels and birds. Being locked in a room gave me an opportunity to truly appreciate the incredible world outdoors.

After graduating from high school, I moved to Colorado to attend architectural school and start an Outdoor Living Company. My goal was to create beautiful outdoor spaces that allowed my clients to enjoy the great outdoors no matter the wind weather or season. Many of my spaces received national recognition in magazines and newspapers. Finally HGTV's DIY network and Great American Country developed a TV series called Mega Decks that showcased many of my greatest creations. The TV series was a national hit and is still airing today.

After 30 plus years of serving my Outdoor Living company as Founder and President, I was rewarded with a phenomenal opportunity to move on and start my new company Masterpiece Outdoor Living.

Today I'm so thankful to have the opportunity to create one of a kind Outdoor Living spaces that capture the best of Colorado's Magnificent Outdoors and serve the needs of my Masterpiece Clients.

BEGINNING WITH THE END IN MIND

Our expert designers come to your home and work to determine your needs, then craft a design concept for your new space using Renders and 3D Virtual Reality

Our team will then work to document your space for construction by producing Architectural Drawing Sets as well as Engineering Structural Sets

The result is a space that has been thought through, from beginning to end, for you and your family's specific needs

MAINTENANCE FREE DECKS

A FRAME FOR YOUR FAMILY'S BEST MEMORIES

Many of our clients first consider upgrading their spaces due to the repairs needed on their current wood deck and rotting frame. Our Forever Frame system is built to last the lifetime of the home and will never rot.

At Masterpiece, we pair our steel frame decks with high quality composite decking that gives you the rich look of wood with maintenance free properties. A maintenance free deck means you can just relax and enjoy your space in the great Colorado Outdoors!

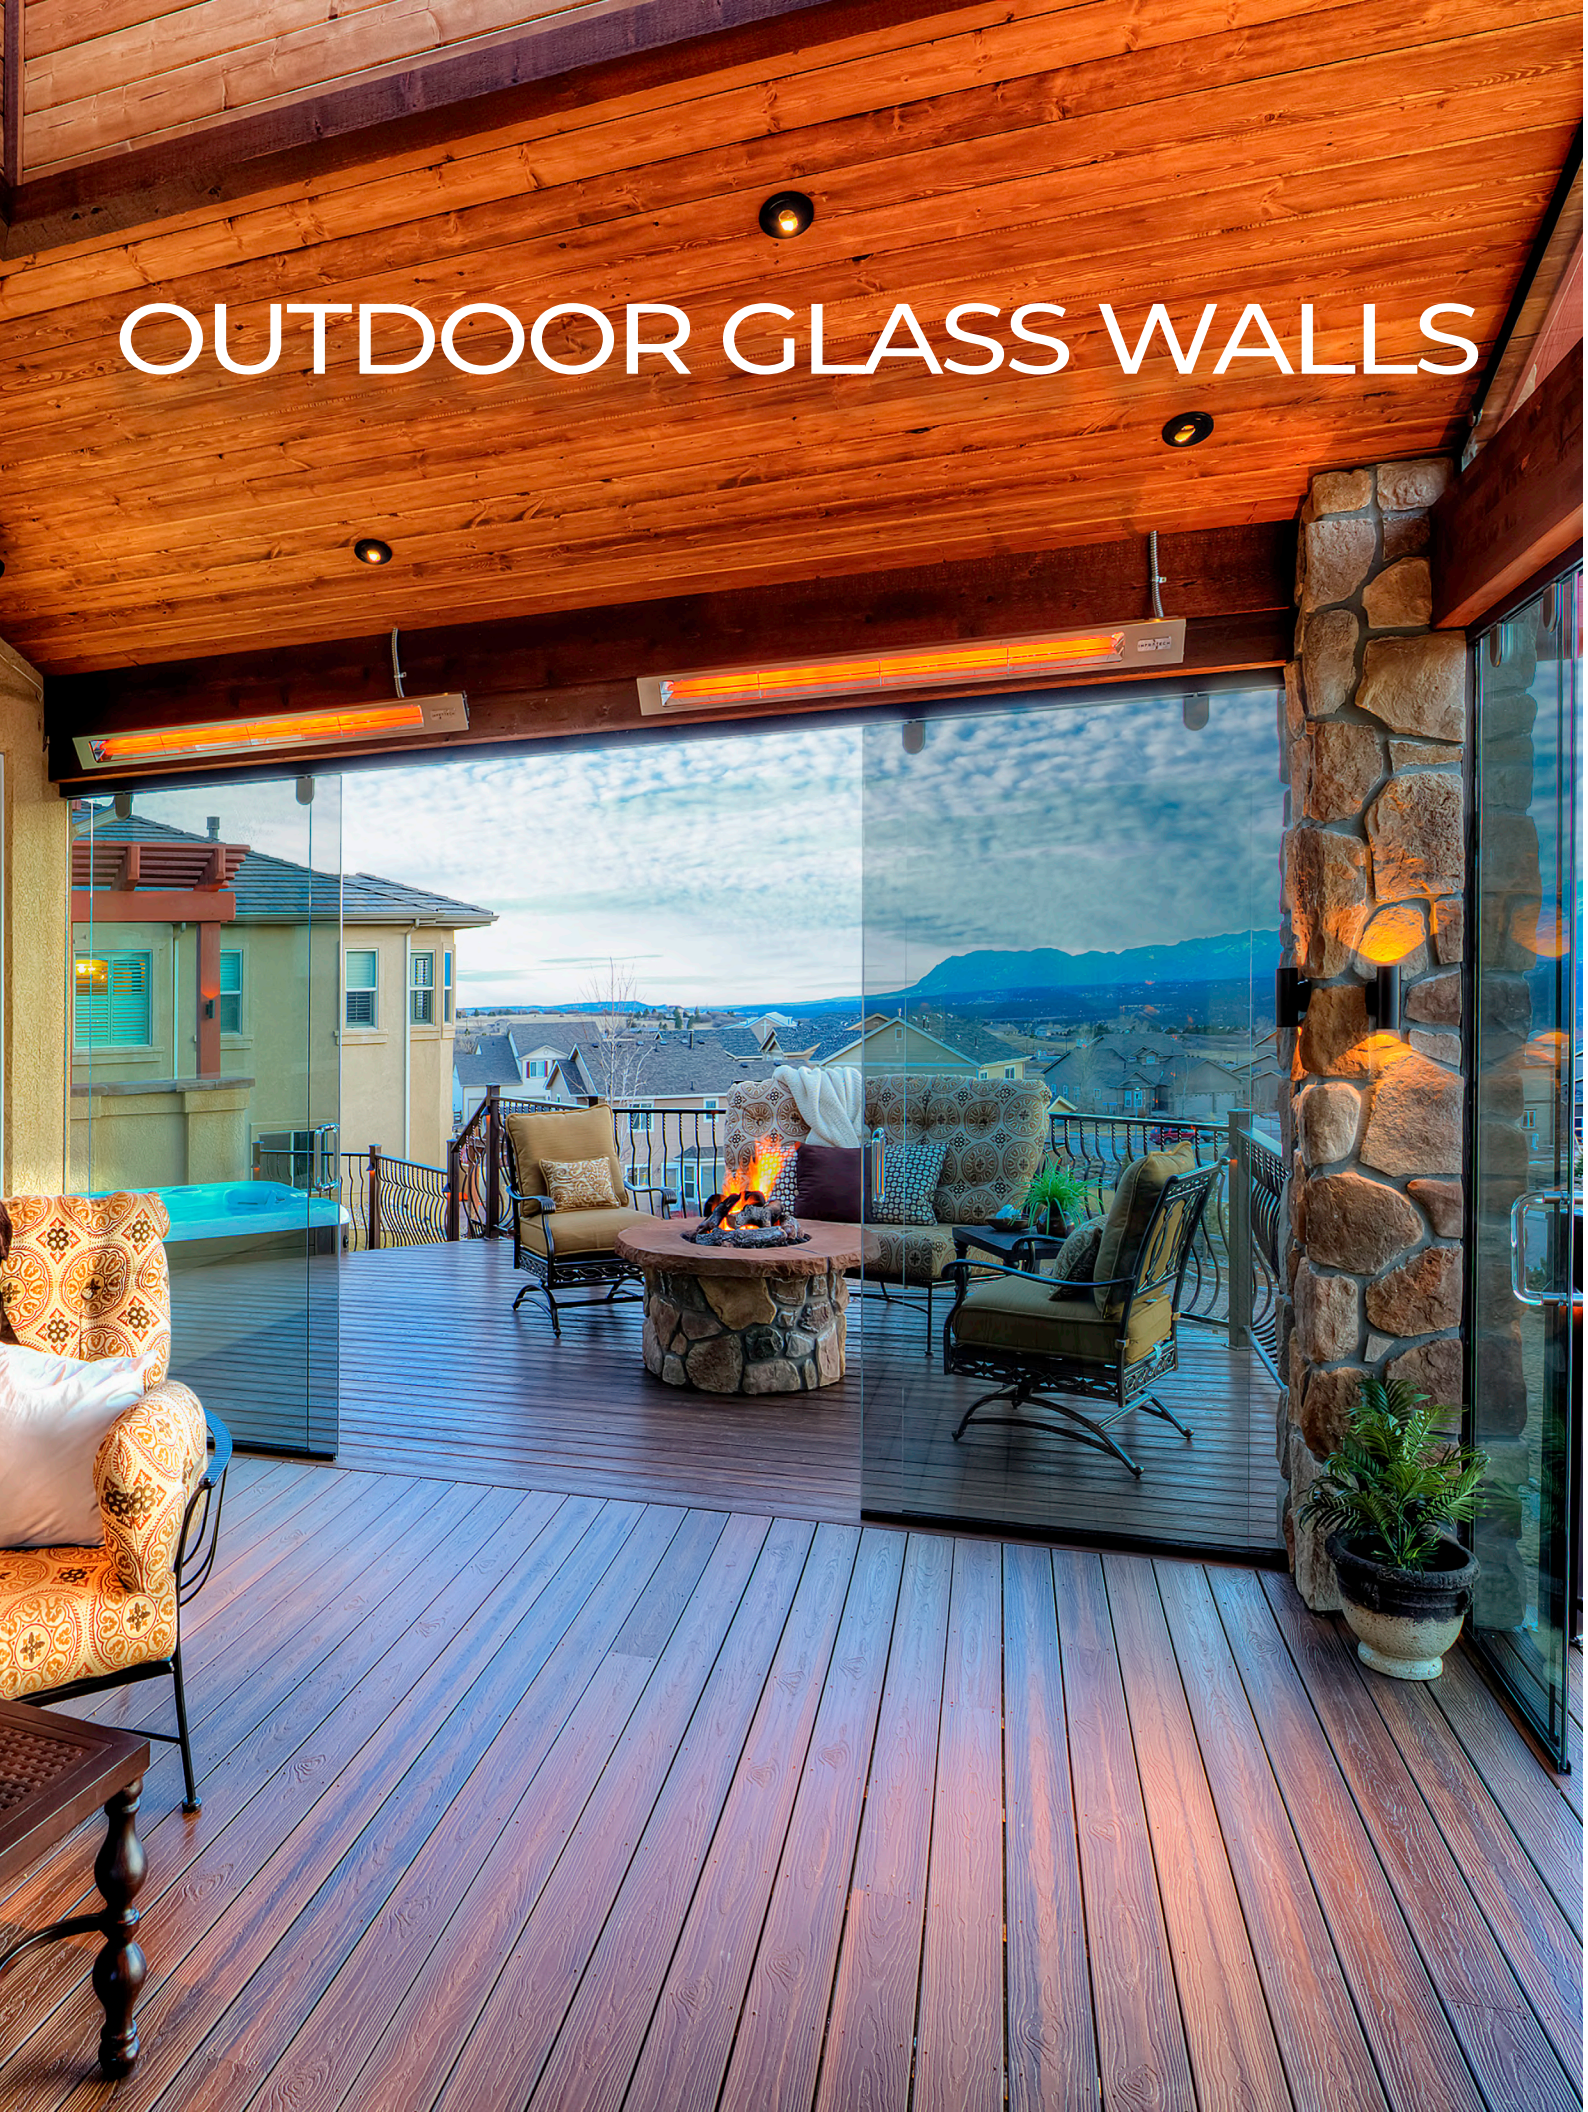

OUTDOOR GLASS WALLS

PRESERVE YOUR BEST VIEWS BEHIND GLASS

Wind exposure is often overlooked. We want you to be able to enjoy your outdoor space any time of day without worrying about what the weather may bring. Our solution is the result of careful planning and years of innovation. Engineered glass installed in key areas of your design will preserve your view while protecting you from the elements.

ARTISAN PATIOS

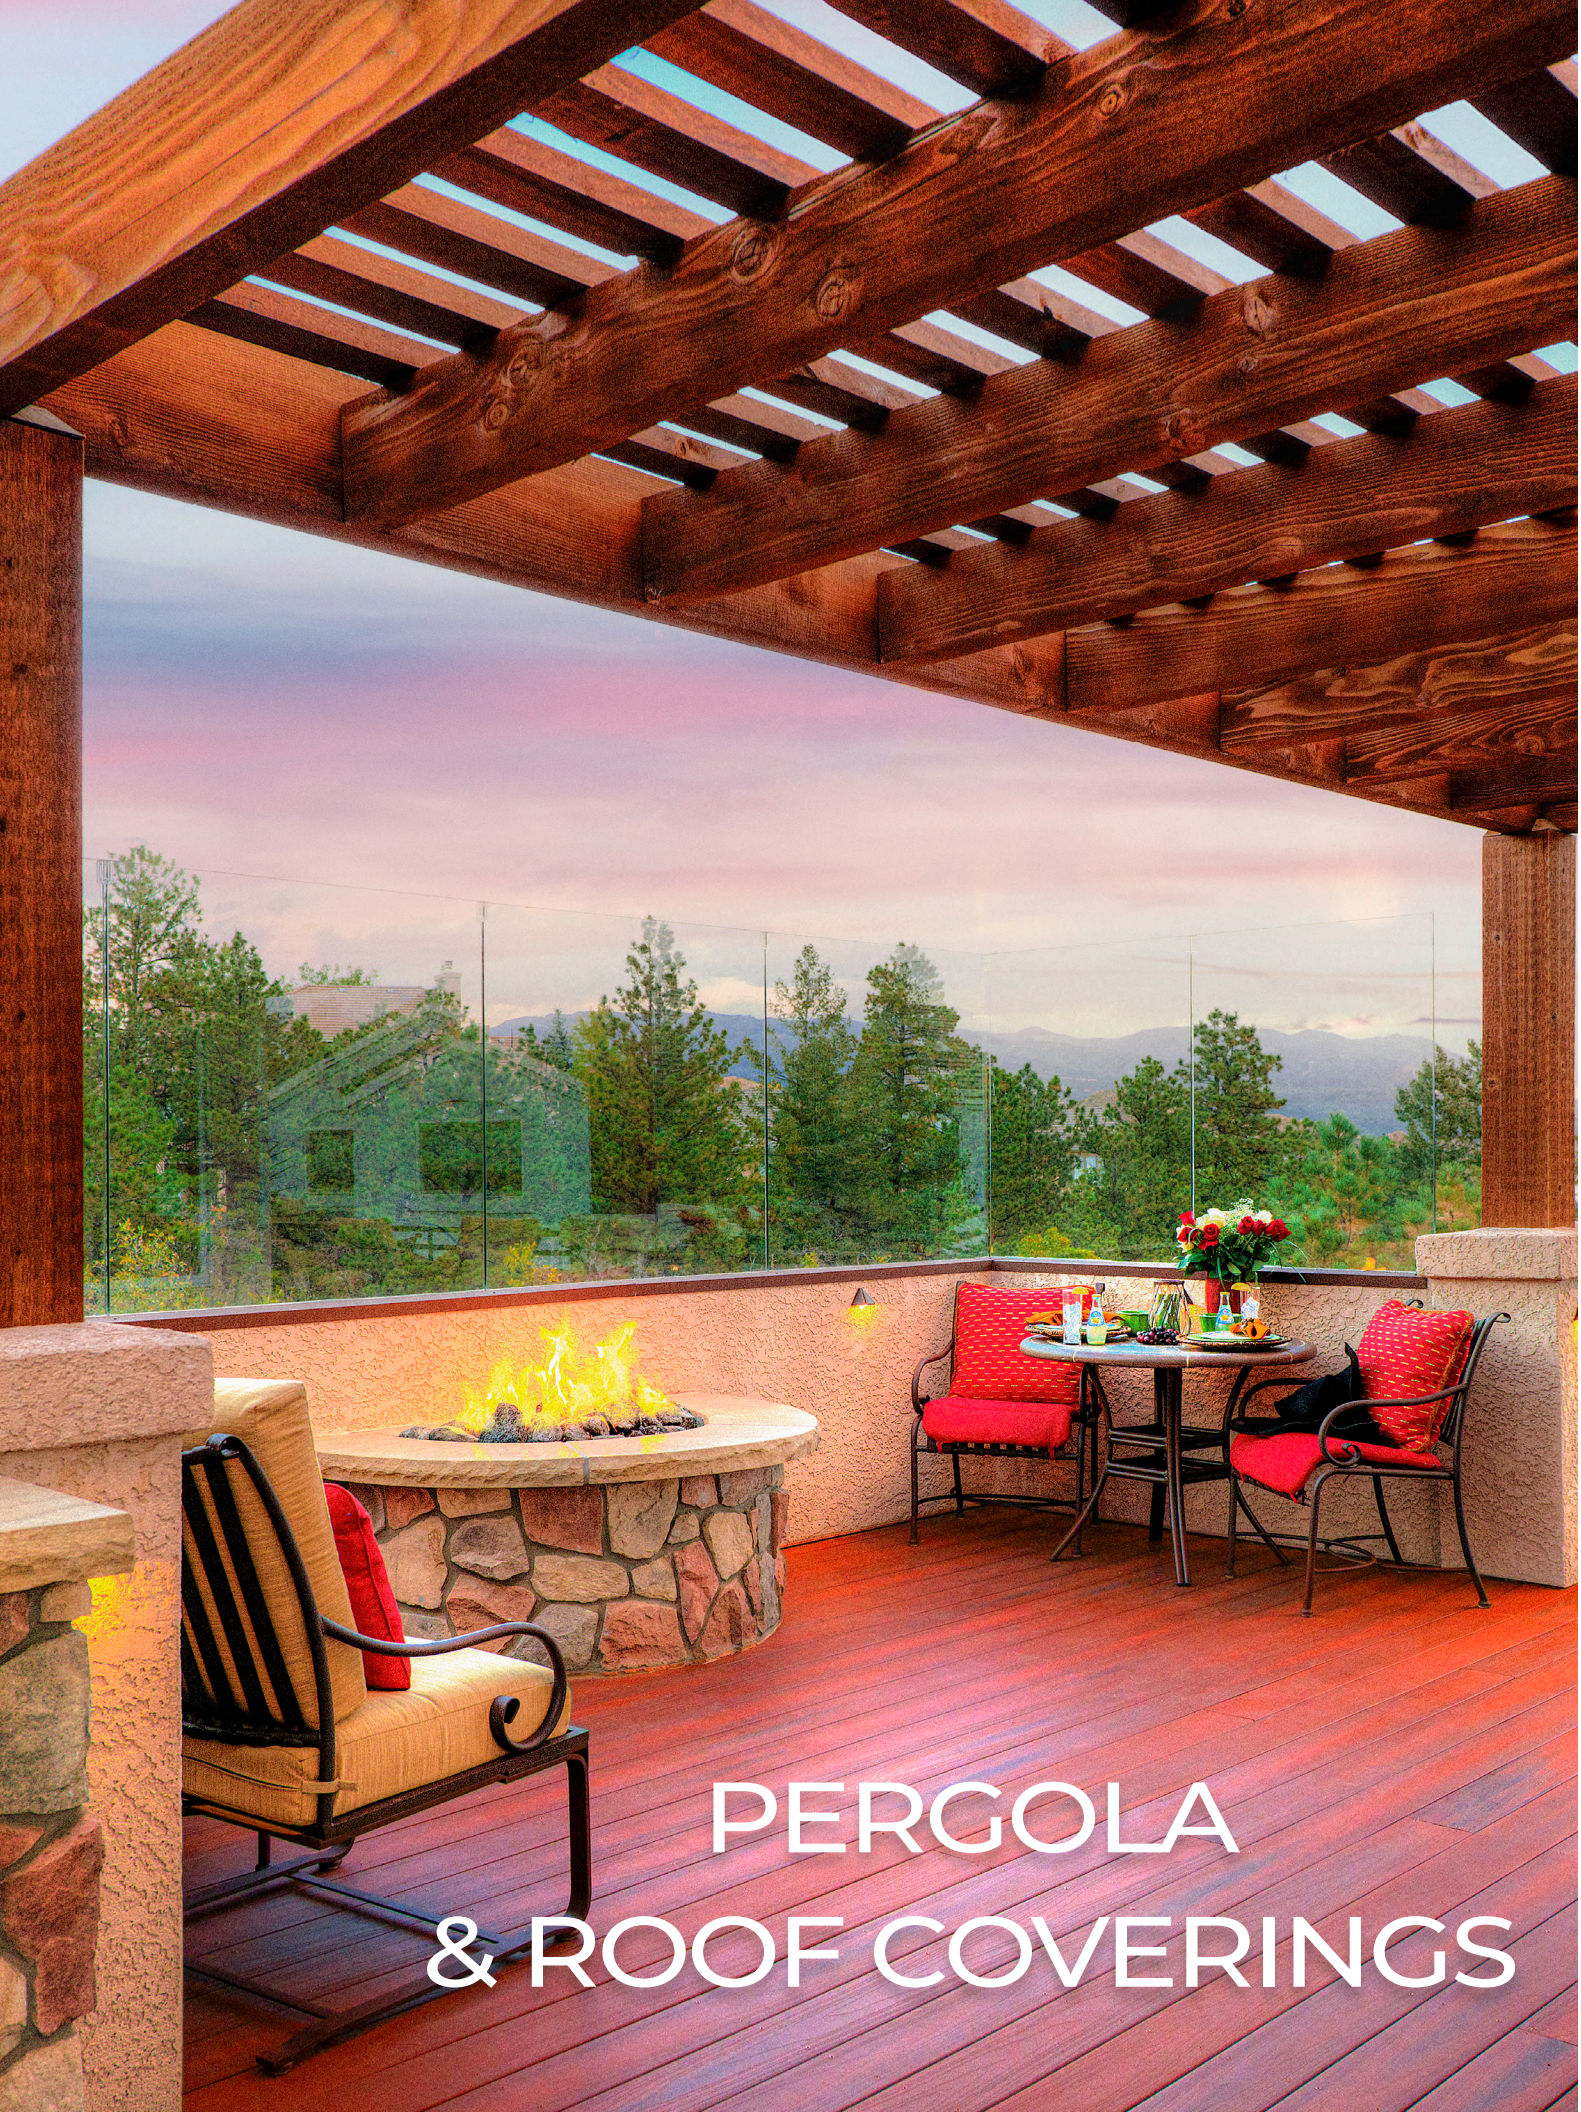

INTEGRATED CHARACTER THROUGHOUT

Our Artisan patio designs bring your home's outdoor space to a whole new level. With a range of designs and colors available, you'll find something that matches your home's unique style and personal tastes.

Best of all, we integrate our color throughout the concrete. That means over time the wear on your patio will reveal more color and not chip away, preserving the character of your space.

A STAMP FOR EVERY STYLE

PERGOLA & ROOF COVERINGS

ALL YEAR LONG, WE HAVE YOU COVERED

Extend your living space! No matter what the weather brings, a roof covering can enable you to spend time outdoors in the dead of winter or heat of the summer. We offer a variety of roof styles that will fit the design of your home and make use of the sites unique characteristics. We can also finish your ceiling with rich wood T&G or opt for a more contemporary style finish.

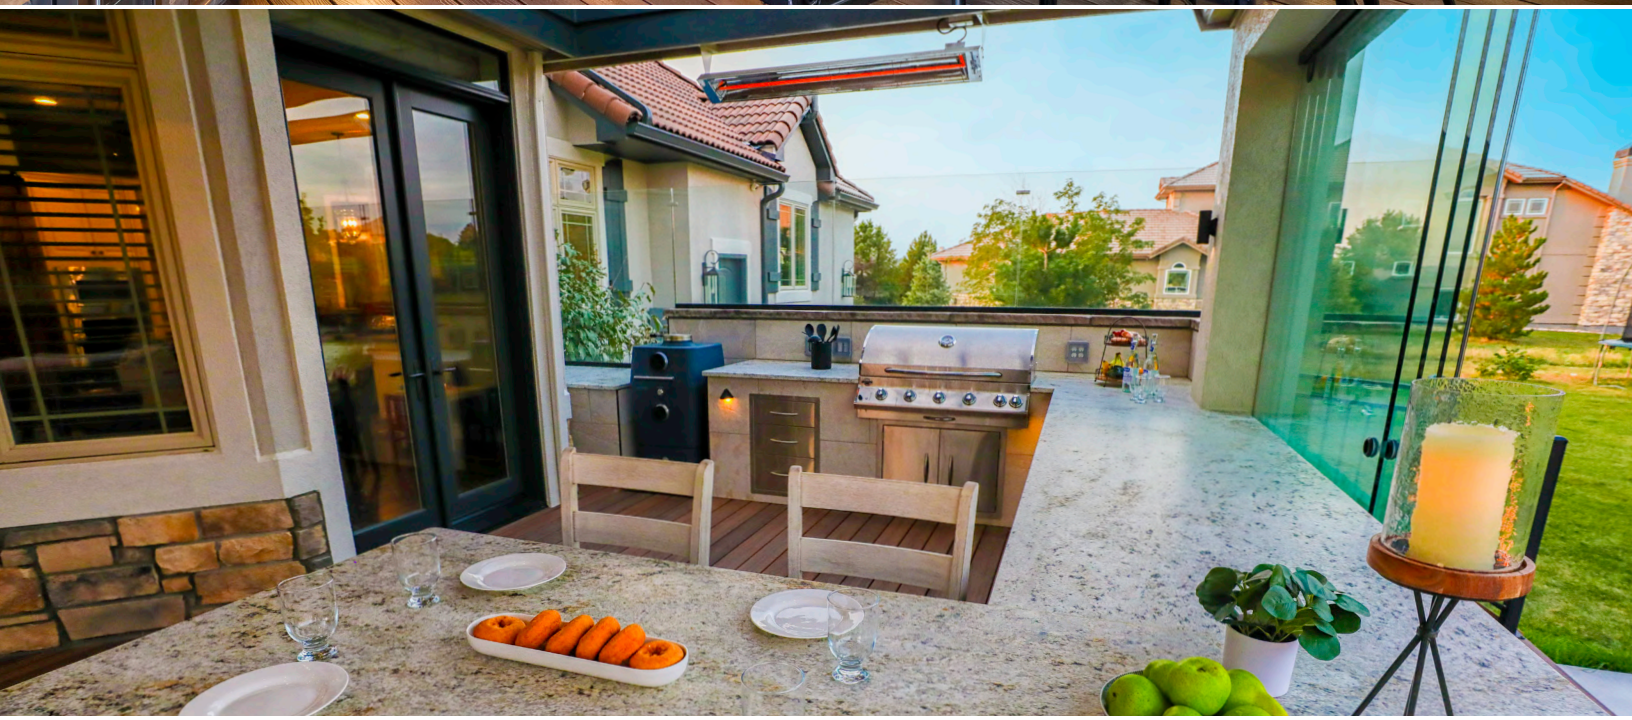

OUTDOOR KITCHENS

OPTIMIZED FUNCTIONALITY, DELICIOUSLY DETAILED

A truly successful outdoor kitchen has it all; Great location, the right equipment, comfortable hangout space, beautiful materials, and details that make it your own! Even the most high-end elegant outdoor kitchen should be designed with easy maintenance in mind.

FIRE FEATURES

STRONGER FLAME, BETTER CONNECTION

A Fireplace, Fire Rail, or Fire Pit are wonderful additions to a dining or living space. It adds both instant comfort and atmosphere. All brass, premium gas burners provide larger flames while using half the gas of conventional burners.

Natural Gas, Propane, or Wood Burning fires will keep you cozy on chilly days.

CLIENT STORIES

HIDDEN GENESEE GEM

THE STORY

These awesome clients first discovered our Custom Decks and Outdoor Living Spaces on TV almost a decade ago while living in another state. Years later, they moved to Colorado and found a perfect home with breathtaking views in Genesee. The only thing missing was an inviting outdoor space to enjoy the scenery and mountain air.

They approached Masterpiece to create their dream setting, and we gladly took on the project! Now, this young family enjoys their outdoor kitchen, deck, and custom fire feature, which exemplifies how our decks enhance Outdoor Living. We encourage you to embrace the many benefits of being outdoors, offering endless opportunities for enjoyment.

To take advantage of the views and complement the home's architecture, we designed a functional, family-friendly space using steel framing and premium composite decking material suitable for the mountainous location. The solid roof with a large skylight protects from sun and rain, while the bar top seating area and customized outdoor kitchen cater to their desires. Infrared heaters provide warmth on cooler days, and low voltage lighting adds ambiance and beauty at a command.

"You can't go wrong with these guys. I wouldn't recommend using anyone else or thinking twice. They not only designed the perfect deck for our home, but they also ensured that it was done right, no matter what it took. When something didn't come out perfectly, they redid it until it was. I'm so glad we trusted them with our home."

-TRAVIS DZIUBLA

FLYING HORSE ESCAPE

THE STORY

Craig and Susan were inspired by Masterpiece Outdoorliving's stunning postcards showcasing Outdoor Living Spaces. They envisioned transforming their own deck and lower patio into a year-round retreat for hosting family and friends, no matter the weather. Our expert team went to work, creating a space that combined style, functionality, and their personal taste. The result exceeded their expectations, leaving them with an exceptional Outdoor Living area they'll cherish for years

To enhance their space, we added operable glass wind walls for protection, along with infrared heaters for optimal comfort on cold evenings. The upper deck remains open for sun-soaking and stargazing in front of a custom fire feature, amplifying the mountain views with a glass backdrop. The lower patio boasts a stunning bar with a built-in kegerator, mini-fridge, ice chest, and buffet area, perfect for entertaining.

Now, Craig and Susan enjoy their expanded and upgraded outdoor space to the fullest. What was once drab and lifeless is now a year-round oasis, adding tremendous value to their property and perfectly complementing the home's architecture. We are thrilled to have created this dream Outdoor Living Space for their family.

"Our new Outdoor Living Space definitely brings the 'WOW' factor to our home. Garth, the owner of Masterpiece, is truly a magician with an amazing ability to transform outdoor living spaces into magnificent art! Moreover, the space he creates is usable all year long. The best decision we ever made was hiring Masterpiece Outdoor Living!"

-SUSAN LAW

LIFE AT LAKEWOOD

THE STORY

Neil and Marybeth, captivated by Masterpiece Outdoorliving's remarkable transformations, wanted their own dream Outdoorliving Space. Garth designed a one-of-a-kind, four-season masterpiece centered around family gatherings and relaxation.

Understanding their love for spending time with their grandchildren, Garth designed an open air deck featuring a grand curved fireplace perfect for s'mores and warming up after a dip in their hot tub. This cozy space is the backdrop for countless evenings of cherished memory making. A few steps away, operable glass walls combined with a solid roof cover protects them from wind, rain and snow offering a remarkable space for entertaining friends and family any time of year. A large, stone fireplace adds ambience and a perfect place for a television. An Outdoor Kitchen complete with a built-in grill, refrigerator and ice chest compliments this dynamic space and offers endless cooking opportunities.

The investment in their Outdoor Space not only added great value to their home but also enhanced their lives. The end result is an extraordinary transformation, blending the beauty of nature with the comforts of home—the heart of their dwelling.

"We decided to invest in our home and make it more livable for the next chapter of our lives, and that's when we met Garth. He came in and really sat down and listened to our story and what we wanted for our family. What he ended up creating was absolutely breathtaking. It's outside, but it's inside, so we get the best of both worlds. The addition of this space, and the way it's designed and laid out in our house, has just made all the difference in the world."

-MARYBETH DUGGAN

Garth Hystad has become the premier designer of his time. Many of his greatest designs were featured on the popular hit TV show, Mega Decks, which premiered on the DIY Network. His love and vision for making the outdoors come to life continue to grow today.

His proudest moment has been watching his son, Brandon Hystad, blossom into an extraordinary man and one of the best outdoor living designers in the country.
